

## AGIA briefing to the Anchorage Chamber Monday Forum

- Inducement at midstream is for the Pipeline Companies. Inducement Upstream is for the Producers
  - AGIA is not a negotiation
  - State must have jobs and careers in energy. State must have gas for Alaskans
  - Bids to be submitted and reviewed with PUBLIC INPUT. Bids selected by the Commissioners
  - Rolled in rates for expansion are required
  - AGIA caps the tariff increases from the rolled in rates at 15%
  - 10 year window for gas fiscal certainty
  - Pipeline will most likely be “INTERSTATE.” MAY be “INTRASTATE---RCA regulated.
  - Applicants seek to reserve space on the line---like a Utility that may then go to the producers
  - Any bid that does not meet all of the MUST HAVES will NOT be considered
  - Applicants have to deal with any Canadian land or Native issues
-
