SUSTAINABILITY , ACCESSIBILITY , RELIABILITY and AFFORDABILITY

2010 Aleutian / Pribilof Islands Energy Summit

On April 24 and 25, 2010, members representing Aleutian/Pribilof Island communities, Tribes, non-profit and for-profit organizations, business leaders, political representatives and the public will convene a meeting to address the critical energy issues of the region. The goal of the Summit is to implement the objectives to make energy accessible, sustainable, reliable and affordable.

The primary objectives are to:

- 
- Adopt a comprehensive energy policy and implementation plan for the region no later than Spring 2011
 - 85% reduction of fossil fuel use in our communities
