## Historical PFD Background: Inconsistent Amounts

## Current Challenge:

- Public Mistrust: Too much spending on Government
- Political Impasse: Results in a PFD Based on Politics - Not Laws

## Solution:

- Restore Public Trust: Consistent PFDs and Spending Limits
- Establish a Fair Resolution: 50/50 Split
- Constitutionalize PFD

## Problem: Uncertainty on POMV Split (Government vs PFDs)

## Solution: Constitutionally Protect the Perm Fund, PFD, and PCE

- Perm Fund Endowment approach is an internationally accepted best practice.
- Limits government spending at 50\% of the 5\% POMV draw.
- Stabilizes both revenues and the PFD with a smoothed five-year average.
- Constitutionally protects fund and PCE for future generations.

## Comprehensive Fiscal Plan Includes Bridge Funding from Perm Fund

- One-time use of our strong financial asset - the Permanent Fund - positions Alaska for long term fiscal sustainability.
- With $\$ 3.0$ billion in bridge funding from the Perm Fund, a forecasted FY2025 fiscal gap of $\sim \$ 300$ million can be managed with a combination of revenue measures and spending reductions.
- Other endowments are considering one-time increases in draws to capitalize on exceptional market performance:
- Harvard's \$42 Bill endowment increased from 5\% to 7.5\% on one-time basis

- https://www.nytimes.com/2020/06/02/arts/endowments-coronavirus.html
- This plan avoids the need for a new broad-based tax.
- Constitutionalizing a 5\% POMV prevents overdraws in the future.
